Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Request for Continued Examination

1. The request filed on October 25, 2005 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/603,023 is acceptable and a RCE has been established. An action on the RCE follows.

2. In view of amendment filed October 3, 2005, claim 14 has been cancelled.

Claims 1-12, and 16 are pending.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1713

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
4. Claims 1-12, and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Corvasce et al. (U.S Patent 5,672,639) in view of Huynh-Tran et al. (US 2003/0152758) for the reasons adequately set forth from paragraph 6 of office action of July 1, 2005.

Applicant's arguments filed October 3, 2005 have been fully considered but they are not persuasive. Regarding the newly added "tread" feature of claim 1, Corvasce et al. (col. 21-23, claims 47-86 clearly disclose using the disclosed tire having a tread comprising the rubber composition of Corvasce et al. Applicants argue that there is insufficient motivation for combining the prior art of Corvasce et al. and Huynh-Tran et al. because Corvasce et al. is directed to a composition comprising starch/synthetic plasticizer. However, the examiner disagrees. Since there is no negative teaching in Corvasce et al. to teach one of ordinary skill in art not to incorporate the maleinized polybutadiene teachings of Huynh-Tran into Corvasce et al., the motivation set forth in the office action of July 1, 2005 is proper because
